

Birthday Parties

Cooked to Perfection offers fun, hands on cooking parties. All children will be involved in the preparation and cooking, and then sit and enjoy their creations. There are several different classes to choose from.

Pizza and cupcakes – each child will make their own individual pizza with the toppings of their choice such as marinara sauce, mozzarella, pepperoni, meatballs, and pineapple. They will also make vanilla cupcakes and vanilla or chocolate buttercream icing. We will fill pastry bags with icing for decorating the cupcakes. (ages 6 and up)

Tacos and chocolate chip cookies- Children will dice, cut, shred & chop all the “stuffings”. They will smell and learn about different spices that are used in beef and chicken tacos as they cook the meats. We will make fresh guacamole as well! They are free to create their own favorites with crunchy corn tacos or soft flour tortillas, tomatoes, onions, shredded cheese, sour cream and shredded lettuce. We will then bake chocolate chip cookies! (ages 9 up)

Fresh Pasta from scratch and meatballs -Everyone will make their own pasta dough, learn how to knead it, and have the opportunity to use a pasta machine with a choice of cuts. The kids will have fun rolling their meatballs too. Pasta and meatballs are cooked individually so each child enjoys his or her own creation. (ages 8 and up)

Dessert Crepes- They will prepare crepe batter and make crepes, saute apples, saute strawberries, make fresh whipped cream, slice bananas, then eat their crepes with homemade marshmallow fluff, homemade nutella, chocolate syrup, and **Oh Yeah, Homemade French Vanilla Ice cream.** (ages 10 and up)

All Birthday parties are about 90 minutes. (sometimes a bit longer, we do not like to rush the kids). We supply all paper goods, fresh brewed iced tea, apple juice, and filtered water. Feel free to bring a purchased birthday cake and candles.

Give us a call at (516) 812-6551 and visit our website at [Cooked To Perfection.Org](http://CookedToPerfection.Org)
